FMB Builder sends clients to seventh heaven

FMB member Distinction Property Services of Bristol has completed its seventh building project in the same street in less than three years. Residents of Chesterfield Road in St Andrews were so impressed with the standard of service and quality of work achieved by Distinction, they recommended them to their neighbours and the company's popularity snowballed throughout the street.

With 20 tradesmen, Distinction is well equipped to deal with all types of requests for building work and has a team of builders, electricians and tilers through to ornamental plasterers and work in partnership with Kellaway Bathrooms on many of their projects.

Helen Forshall was one of the first Chesterfield Road residents to use Distinction Property Services, she said: "I'm impressed that after nearly three years our bathroom is still looking as immaculate as when it was first installed. We're looking at moving shortly and we will definitely use Distinction Property Services again"

Resident Caroline Frost said: "Distinction were able to keep to the timescale set out at the start of the project and completed the work on time."

Gareth Guiver & Richard Brown of Distinction Property Services are so pleased with how the company has progressed, they said: "We place quality of work and customer service at the top of our agenda, which has helped us grow from a team of three to twenty in only three years. Our reputation has grown from a solid base of satisfied customers and as members of the FMB we can support that reputation through well recognised credentials. We also have a good source of reliable suppliers for all our projects, which enables our work to be completed to a high standard and to the best possible timescale."
